10 - 12. soruları verilen metne göre cevaplayınız.

The Internet makes our lives easier. We can do many things by using it like communicating, shopping, searching information, studying, making friends etc. However, there are a lot of disadvantages, too. First, there is a lot of wrong information because anyone can post anything. Second, you can be an Internet addict if you spend too much time on the Net. So you can not socialize and spend much time face-to-face with your friends. Third, hackers create viruses and they can harm your computer. Finally, you may have some safety problems. Hackers can steal your identity or passwords. They can even get into your personal computer.

10. According to the text, if you spend too much time on the Internet you - - - .

- A) can never access the Net
- B) can search for information
- C) can't have many passwords
- D) can't socialize with your friends
